

Emerging Technology Consortium

"Innovation Empowers"

Capabilities and Marketing Statement

LEADERSHIP: Darold L. Hamlin, President, and Executive Director

CAPABILITIES:

The Emerging Technology Consortium (ETC) is a non-profit 501(c)(4) – economic planning organization dedicated to using technology and innovation to create opportunities in all communities. The result is increased minority ownership of next-generation businesses with good-paying jobs. The ETC provides consulting services to governments and organizations that want to leverage their assets to develop new economy organizations. With over 25 years of experience in federal, state, municipal, and quasi-governmental settings, the ETC is led by Darold Hamlin, who has served as a Chief Technology Officer at all levels of government. He uniquely understands the government's issues as they attempt to create new opportunities in the 21st-century global Economy. The ETC is a unique organization based in Washington, DC, that government agencies, Historically Black Colleges and Universities (HBCUs), and community-based organizations seek to prepare all Americans for the 21st Century economy.
